![charge.certified hardware partner logo]

chargecloud GmbH

certifies that the controller model:

CC612

Firmware version: **5.20.2**
chargecloud Release status: **397**

in combination with the charging station model:

Design Tower

developed by

Stöhr GmbH Metalltechnologie
Weiherstr. 3
75203 Königsbach-Stein
Germany

has successfully passed the chargecloud certification process and is compatible
with the chargecloud ChargePoint Management system.
The connection was made via OCPP 1.6 JSON (Open Charge Point Protocol) and
following charge.certified modules were successfully tested:

ocpp   docu

eichrecht

Date of issue: 10 november 2021

This certificate remains valid until a major release upgrade of the firmware is implemented.
